Delegates: **Hilda DEBIE & Liesbet HUYGE**

The **Flanders Investment & Trade** agency promotes sustainable international business, in the interest of both Flanders-based companies and overseas enterprises.

Whatever sector you are involved in, **Flanders Investment & Trade** will help you establish contact with the Flemish companies you are looking for. This includes not only products or services you may be sourcing, but also various types of business relationships, from joint ventures to technology transfers.

At another level **Flanders Investment & Trade** enhances Flanders' position as the gateway to Europe for inward investors. The agency identifies, informs, advises and

supports overseas enterprises by establishing production and research facilities, contact centers, headquarters, logistics operations and the like in Flanders, the northern region of Belgium.

This broad focus on international entrepreneurship, involving outward trade as well as inward investments, requires not only a thorough knowledge of the Flemish economy, but also an extensive network outside of Flanders.

We have just that for you. Do visit our website and discover our worldwide network. With over 100 offices we are bound to be conveniently located near you, wherever you are.

flanderscare@vlaanderen.be
www.flanderscare.be

Delegate: **Carine BOONEN**

The Government of Flanders created the programme **Flanders' Care** as a driver for innovation. The mission statement of **Flanders' Care** is "to measurably improve the quality of care through innovation and responsible entrepreneurship". It has to ensure that by 2020, Flanders ranks among the top regions of Europe, and stands out as an economically sustainable and caring society.

Social and demographic developments are undoubtedly the greatest challenge for our care and welfare sector. In 2020, 21% of the population will be over the age of sixty-five; proportionally, the number of persons over

the age of eighty in this group is increasing even faster. This trend will have a major impact on our society, policy and the sustainability of our care system.

Flanders' Care views this development as an opportunity to guarantee the quality of care through innovation, and at the same time to create opportunities for entrepreneurs. Quality of care and industrial supply are closely intertwined. Entrepreneurship is crucial to provide the right solutions for the increasing demand in care needs and to keep people as long as they will at home.

\ WALLONIA EXPORT & INVESTMENT (AWEX)

CEO: **Pascale DELCOMMINETTE**
Delegates: **Victoria HAESENDONCK & Séverine DELFOSSE**

Wallonia Export & Investment (AWEX) offers general expertise in international economic relations. This expertise extends from seeking foreign investment through to promoting Walloon exports.

AWEX also provides a range of services to all Walloon businesses aiming to operate internationally. However it is also the partner of choice for all buyers, specifiers, importers and foreign prospects who are looking for a partner in Wallonia and wanting to find products, equipment, technologies or services in the area.

Outside of Belgium, **AWEX** is able to count on an international network of 109 financial and business attachés covering more than 120 markets and some 20 international organisations.

These representatives are the key contact locally for any business or public body wanting to develop a business or partnership relationship with Wallonia or simply wanting to find out about the economic potential of such a relationship.

At the Walloon level, **AWEX's** main partners are in particular the centres of competitiveness and the technological clusters. **AWEX** works in close collaboration with the Walloon Employers' Federation, the Walloon Union of Enterprises and its International Marketing department.

The agency has been certified ISO 9001 since April 2002.

Chief Executive Director: **Bénédicte WILDERS**
Delegate: **Nathalie STEFANOVIC**

Brussels Invest & Export is the foreign trade and investment agency of the Brussels-Capital Region. It aims to promote the internationalization of the Brussels economy.

Brussels is not only the Belgian and European capital, home of NATO and EU headquarters, but it is also a large business centre at the heart of the European market.

Brussels Invest & Export assists Brussels' companies operating in foreign markets. Almost ninety economic and trade commissioners across all continents provide free guidance to SMEs, target potential local prospects and partners, organize matchmaking events... Concrete initiatives in Brussels and abroad include trade missions, contact days, invitations of decision makers and collective stands at international trade fairs.

Brussels' exporters are listed in a database, www.brussels-exporters.be, which can be accessed by all foreign companies searching for partners.

Another mission of Brussels Invest & Export is to attract foreign companies to Brussels and to provide them with support, should they decide to locate their business in the Region.

To enable investors to assess the benefits of establishing in the capital, **Brussels Invest & Export** offers them a « Welcome Package » which includes equipped office space at no cost for a three-month period.

To support the above mentioned activities, **Brussels Invest & Export** has developed a trade counseling service to help companies individually with their internationalization process as well as a competitive and economic watch service to monitor and inform on international trends and opportunities.
